

The background is a vibrant blue abstract composition. It features smooth, flowing liquid-like shapes that create a sense of movement and depth. A bright, circular light source is visible in the upper center, casting a soft glow and creating a lens flare effect. The overall aesthetic is clean, modern, and futuristic, with a focus on fluidity and light.

Future Energy Solutions, Lappeenranta, 2024-09-10

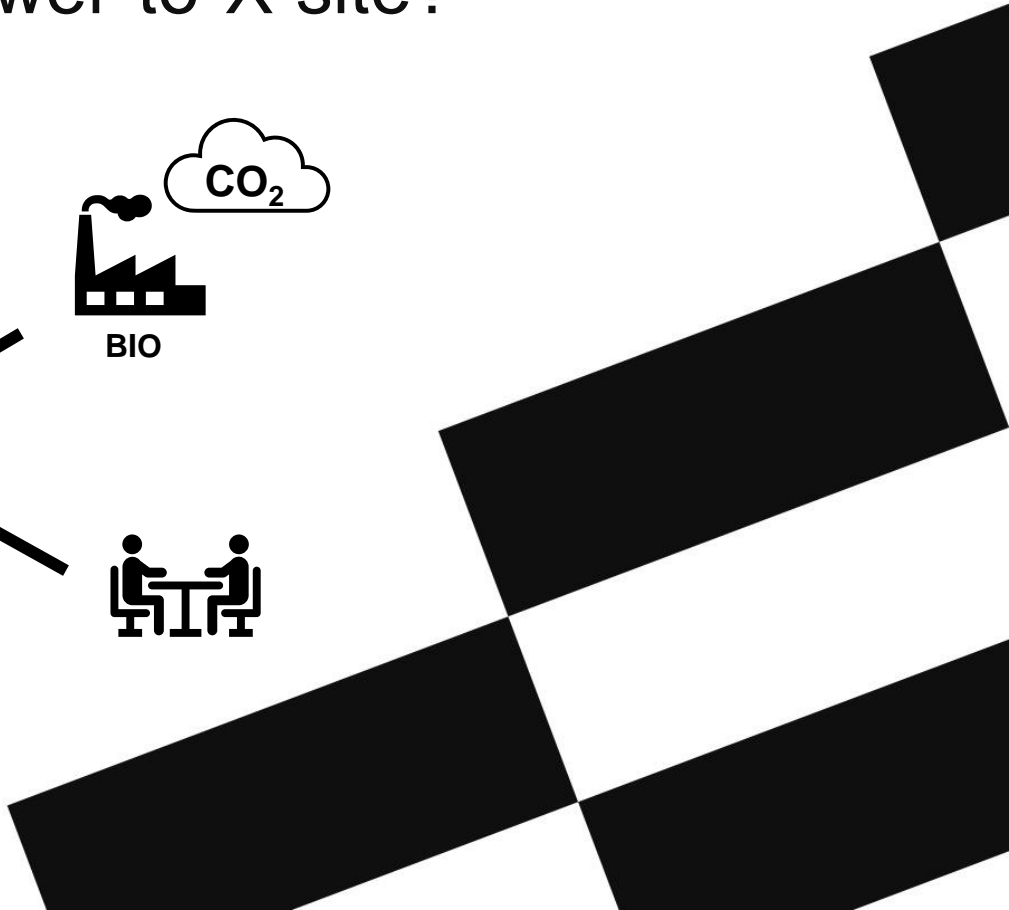

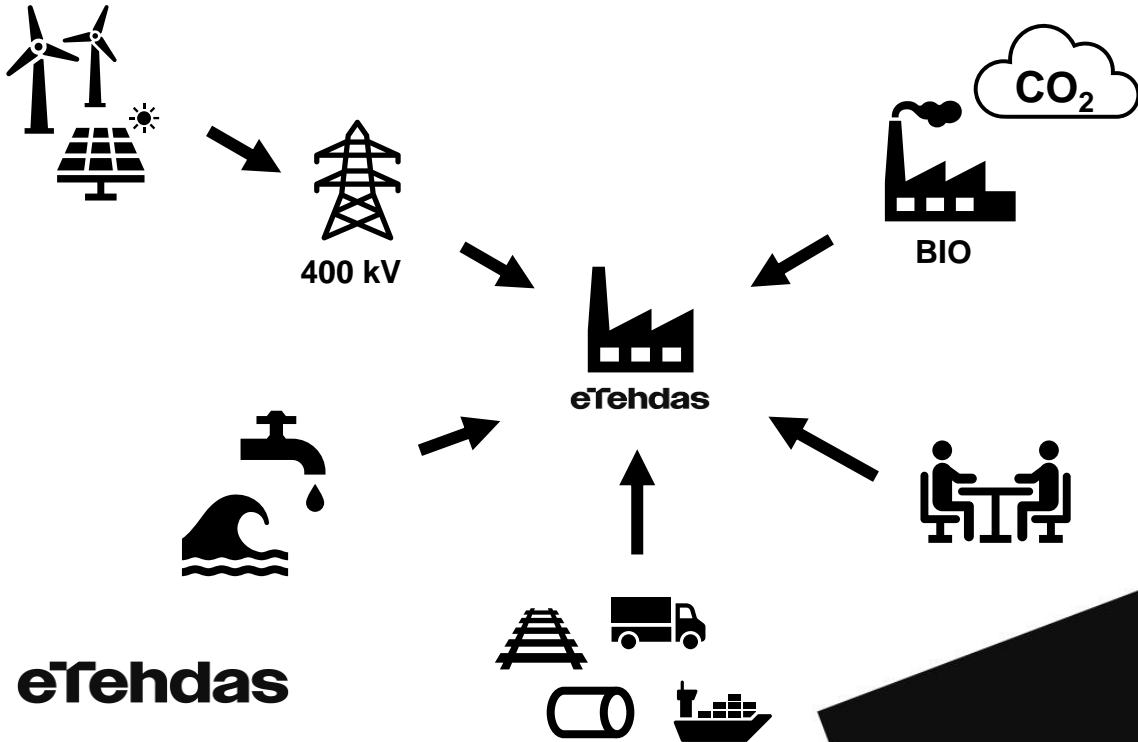

# Refining power

eTehdas is a Finnish power refining company focusing on producing added-value products and services from wind and solar power.

**eTehdas**

*We refine power*

# What is **needed** on a power-to-X site?

# Lappeenranta **has** what is needed!

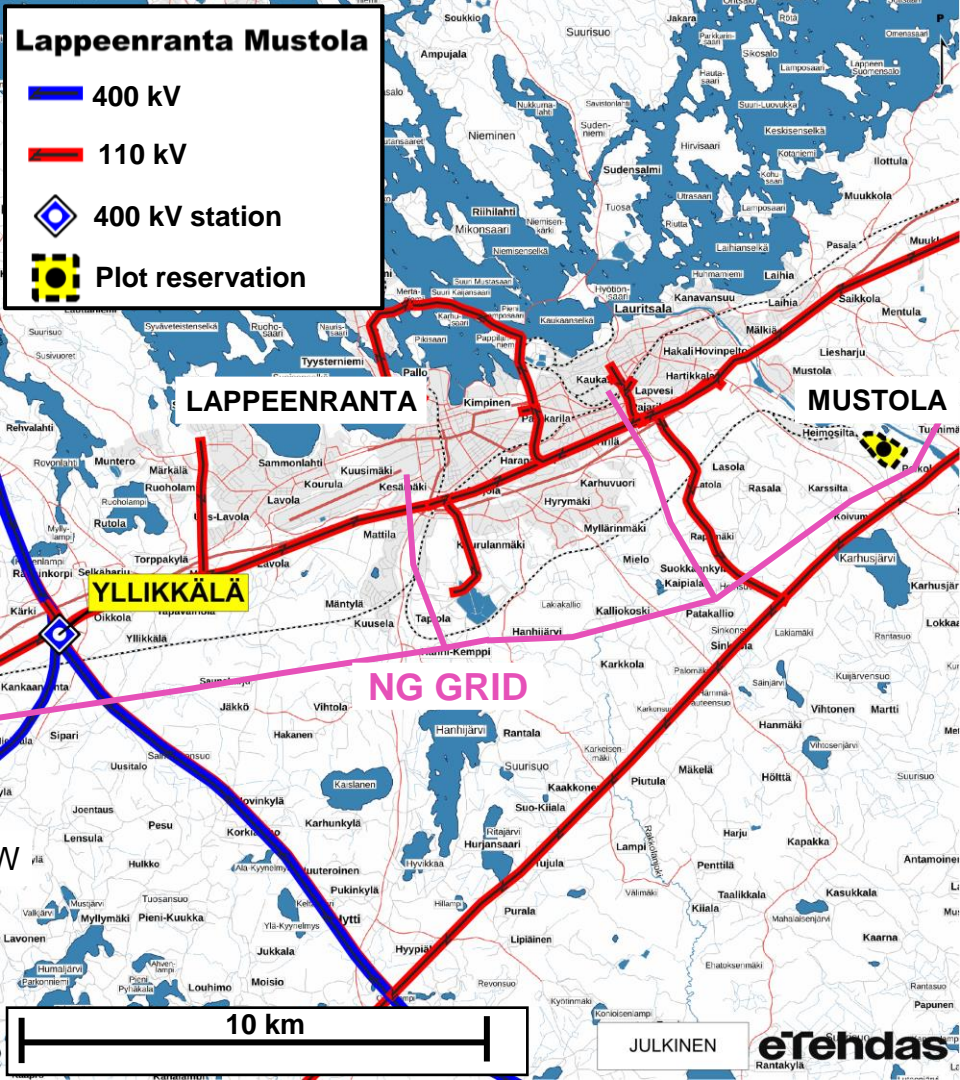

eTehdas has made a plot reservation with City of Lappeenranta which enables the preparation of a power-to-X project in the Mustola area.

## For power-to-X project development:

- The Lappeenranta Mustola site fulfills the technical requirements well
- Lappeenranta as a region and the local community and partners form an excellent environment
